DENNIS W. GRIFFIN

Full-stack Web Developer

I am a full-stack web developer with 5+ years of experience in building frontend, backend and full-stack websites and web applications. My goal is to build websites for clients seeking an online presence for themselves and for their businesses, and to seek a position of employment in an exciting company in the field of web development.

WORK EXPERIENCE

Host of *Versus Codewars* (Self-employed, 2022 – Present)
- A video series on YouTube, in which I attempt to solve coding challenges on the website Codewars (https://codewars.com).
- New episodes every Monday at 3 PM ET.

Freelance Web Developer (Self-employed, 2018 – Present)
- Building and testing websites for local clients.
- Using various web development technologies, including Node.JS, PHP, React.JS and Next.JS.
- Deploying websites to various platforms such as Heroku, Ionos *(formerly 1&1)* and Vercel *(formerly Now)*.

PROJECT SELECTION

Countdown Timer (React.JS, SCSS)
- Keeps track of multiple timers leading to user-specified events, persisted in the browser's localStorage.
- https://2020-countdown-timer.glitch.me

Timestamp Microservice (Node.JS, Express)
- A backend API microservice which displays the current date in its natural form as well as its Unix timestamp representation.
- https://dwg-timestamp.glitch.me
